If the successful bidder fails to execute an agreement within the stipulated time, Letter of Acceptance will be cancelled and EMD will be forfeited.
 26. **Security Deposit:**
 - The successful tenderers will be required to furnish security deposit equivalent to 5% of the value of the Item quoted, within 15 days of execution of agreement in the form of either **Demand Draft or unconditional irrevocable Bank Guarantee valid for 18 months** from the date of agreement, renewable if the completion of the project is extended beyond the agreement period.
 - Bank Guarantee /Security Deposit will be refunded after the supplies are completed in full and received in good condition without loss or damage and installed commissioned satisfactory working of machinery/ equipment as certified by the technical experts and on the expiry of guarantee/ warrantee period.
 - The security deposit held by the SPV, till it is released to the successful tenderer will not earn any interest thereof.
 - If the Tenderer fails to act as per tender document or backs out after his tender accepted, his security deposit will be forfeited.
 27. The Tender will be valid for acceptance for a period of **90 days** from the date of opening of commercial bid.
 28. The respective Items should be installed and Commissioned within **150 days** from the date of receipt of the order. If the above item is not installed and commissioned within the period specified, the security deposit amount will be forfeited and the tender will be cancelled and loss if any for inviting fresh tenders will be made good from the defaulter.
 29. Tenders are not transferable.
 30. Training to the user / operator shall be provided wherever required at supplier's cost at the Factory site of the SPV (**M/s. SIIMKA KNITEX CLUSTER SERVICES PRIVATE LIMITED, S.F. No. 62-1B2, NARANAPURAM POST, PALLADAM, TIRUPUR-641664, Tamilnadu, India**)
 31. Normally no extension of time will be granted, unless there are valid reasons acceptable by the competent authority.
 32. If any dispute arises in the contract, the same will have to be finalized in the court of TIRUPUR jurisdiction.
 33. Confusional tenders will not be accepted.
 34. The SPV(**M/s. SIIMKA KNITEX CLUSTER SERVICES PRIVATE LIMITED**) with the approval of the Purchase Committee reserves all rights to cancel any or all tenders without showing any specific reason.
 35. The Tenders should be accompanied by all the particulars requested in the schedule including process flow chart / technical specifications, specifications of the material used, dimensions, drawings, foundation drawings etc. of the respective item quoted.

36. The Tenderer should not have been blacklisted by any State Government/ Central Government and/or any State/ Central Public Sector undertakings/ Financial Institutions, etc., Declaration to this effect shall be furnished in the Technical Bid as per **Annexure IV**.

37. **Guarantee period:**

The supplier shall undertake to repair free of charge or replacement of any defective part of the respective item installed and commissioned due to defective materials or faulty design or workmanship during a period of one year, from the date of commissioning of the respective Item . Delivery of the full replacement or repaired parts should be effected free of cost at the factory site without loss of time so that the down time is minimized.

38. **Inspection:**

Before delivery of the Item, pre- delivery inspection by Experts /Agencies concerned, nominated by the SPV (**M/s. SIIMKA KNITEX CLUSTER SERVICES PRIVATE LIMITED., TIRUPUR**) Shall be allowed to inspect the works and to verify the suitability according to the specifications.

39. **Force Majeure**

Failure or delay in the part of tenderer for supply due to force majeure causes enumerated here under shall be considered, provided the supplier produces documentary evidence.

- a. Any cause which is beyond the reasonable control of the tenderer.
- b. Natural phenomena, such as floods, drought, earthquakes and epidemics.
- c. Act of any Govt. Authority, domestic or foreign, such as wars declared or undeclared quarantines, embargoes licensing control on production or distribution restrictions.
- d. Accident and disruptions such as fire, explosion, increase in power cut with respect to date of tender opening etc.,
- e. Strikes, slow down and lockouts.

Failure or delay in the part of tenderer for supply due to force majeure causes enumerated here under shall be considered, provided the supplier produces documentary evidence.

The cause of force majeure condition will be taken into consideration only if the supplier notifies within 30 days from the occurrence of such eventualities. The purchaser shall verify the facts and grant such extension as the facts justify. For extension due to force majeure conditions, the supplier shall submit his representation with documentary evidence for scrutiny by the purchaser and decision of the purchaser shall be binding on the time. However, the price quoted by the bidder and accepted by the Purchaser shall remain firm during such extended period. For the matter of clarity, Force Majeure shall not have any bearing on the price.

40. **Payment :**

Advance Payment:

20% of cost of machinery /equipment shall be paid as advance to the supplier while confirming the order / execution of agreement.

On Supply:

70% cost of machinery / equipment shall be paid on receipt of machinery at Factory site location of the SPV(**M/s. SIIMKA KNITEX CLUSTER SERVICES PRIVATE LIMITED, S.F. No. 62-1B2, NARANAPURAM POST, PALLADAM, TIRUPUR-641664, Tamilnadu, India**)

On Final Acceptance:

Balance 10% of the cost shall be paid after satisfactory installation, commissioning and performance of the machinery /equipment at the factory location of the SPV and after certification by our technical expert and after submitting the Performance Bank Guarantee for 10% amount of total value of equipment, valid upto 6 months after installation, commissioning of the machinery concerned. The bidder should impart Training to operate the equipment's.

The rate quoted by the tenderer for the materials is final and no enhancement will be allowed at any circumstances. The enhancement of rate will cause the cancellation of the supply order and forfeiture of security deposit.

No payment will be made unless Agreement is properly executed.

41. Saving Clause:

No suit, prosecution or any legal proceedings shall lie against the SPV for anything that is done in good faith or intended to be done in pursuance of tender. In the event of any dispute arising out of the tender such dispute would be subject to the jurisdiction of the Civil Court within the city of TIRUPPUR.

42. Penalty clause:

If the bidder fails to install and commission the respective item within the stipulated time or perform the services within the time period specified in the contract, the penalty @ 1 % per week or part thereof will be imposed subject to a maximum of 5% of the total cost of work order unless the delay is due to recognized force majeure conditions.

Item I.

ITEM	PARTICULARS	SPECIFICATION	QTY
1	Seamless 28 Gauge knitting machine (With standard accessories)	Dia 12 or 13,14 & 16	Each 1 No

Technical Specification:

1. Groz Beckert needles and sinkers
2. 16 sets of actuators (2 per feed) each with 16 selection levers
3. 8 yarn fingers per feed, of which
Yarn finger n°1 and 2 with 3 positions
Yarn finger n°3 with 2 positions
Yarn finger n°4 and 5 with 4 positions
Yarn finger n °6 with 6 positions
+ 2 colour yarn finger with 2 positions
4. 8 sets of body yarn feeders
5. 10 sets of body map yarn feeders
6. 43 yarn sensors and for yarn breakage detection(8 integrated to the body feeders, 10 integrated to the body map feeders, 25 Dinima spyder capacitor yarn sensors.
7. 4 sets of cutting units, composed of movable and oscillating knives with independent control, individual trapper for elastomeric yarns on feeds 1,3,5,7and double trapper on feeds 2,4,6 and 8. Saw cutter with automatic disengagement and stop the rotation when the dial is lifted.
8. 8 sets of knitting cam group composed of 8 step motors with device for automatic set of 0-encoder(zero position)
9. Fabric pressing air blow
10. Automatic lubrication with oil recycling (independent management of oil between needle/sinkers and needle selectors.
11. Brush less motor controlled by full digital driver
12. Take down tube Ø 150mm(ejection tube Ø 100mm)
13. Garment ejection by extra-large bell with air blow
14. Upper yarn rack
15. Rear grill with 10mm aluminum tubes holding 24 cones
16. New electronic DINIMA XQ with 7" touch screen and USB connection
17. 3 suction fans
18. 3 sets of LGL Attivo
19. 3 sets 8 additional vertical trappers
20. 3 sets of network key board
21. Designing software with license
22. Seamless Garment Knitting machines produce TUBULAR GARMENT PANELS.
23. From these tubular garment panels, with minimum cut & sew process, garments are produced.

24. The specialty of this tubular garment panel is that each panel can be made up of portions with different features by utilizing different stitch structure for each portion. For example if a garment panel for a ladies top is made, then with help of needle selection, the cups to support the breast can be knitted, then at the waist level mock rib can be knitted on both sides to give a shape to the garment. Also mesh portions can be knitted below the arms for better moisture management.
25. Logos or washing instructions can also be knitted while making the garment panel, at the right position.
26. These different knit structures are possible in seamless machines due to following features in the machines :
 - 1) Computerised needle by needle selection.
 - 2) Stitch motors increasing / decreasing loop lengths, even within one course. There are eight feeders, each will have one step motor & each one can be programmed differently.
 - 3) There are fingers similar to auto-striper machine which can help to change to different coloured yarn. For Lycra there is separate finger in each feeder.
 - 4) The knitting in the particular machine model is done with two yarns, one is the yarn which appears on the front & another yarn is the covered Lycra which usually goes at the back. When designs are created in the fabric, they are done by bring the back yarn to the front for the selected needles & vice versa. The above are the main features, which when combined together helps to knit the garment panel containing different knit structures, matching the contours of the body.
 - 5) Following type of garments can be knitted
 1. Smart Textiles
